

## Health Board to Test Milk to Determine if Properly Pasteurized

Recommend Phosphate Tests  
To Ascertain If all Injurious  
Organisms in Milk Have Been  
Killed When Pasteurized.

### REVOKE PERMITS

Old Permits Issued to Private  
Garbage Collectors Revoked  
—Other Matters.

Kingston's health board Tuesday evening unanimously adopted the report of its milk committee recommending that the phosphate tests be made of all pasteurized milk sold in the city. One of the chemists at the city laboratory will be sent to Albany to learn the methods used in making the test, which was invented in England and brought to this country. It has the approval of the state health department.

By the phosphate test it is possible, it is said, to ascertain if milk intended for human consumption has been properly pasteurized and all injurious organisms in the milk killed when the raw milk was pasteurized.

The action taken by the board, Mayor C. J. Heiselman said, was another forward step taken by the city's health department to guarantee that only pure and wholesome milk was consumed in the city.

Representatives of the state health department met with Mayor Heiselman and members of the health board last week at the city hall, at which time the milk question was thoroughly discussed and the state representatives recommended that the phosphate test be placed in operation here as by use of this test it would be possible to determine at once if the raw milk had been thoroughly cooked.

Dr. Fred Voss, of the milk committee, reported that progress was being made in the drafting of the new milk code that the board is considering adopting. The committee will meet with Mayor Heiselman next week to continue work on the code.

Dr. Harold Clarke, who has charge of the collection of garbage in Kingston, called attention to the fact that there was no way at present of checking those who had permits to collect garbage in the city. He said that many permits issued long before the war were still in use, and recommended that all permits that had been heretofore issued to private individuals to collect garbage be revoked.

The board unanimously adopted the recommendation and after August 15 only permits issued by the health board will be honored.

### Sewer Needed

Sanitary Inspector John McVillie called attention to the fact that complaints had been received regarding odors from an outside vault on East Union street, just off Hasbrouck avenue. He said there were about five houses in a group about a thousand feet from Hasbrouck avenue, up on the hill, and that there was no sewer in that street. He suggested that the work of placing a sewer in that portion of East Union street be made a WPA project and was directed to write to City Engineer Norton, who has charge of drawing up work relief projects for the city.

### More Births

The reports of the officers filed with the board showed that during July there had been 66 births and 55 deaths in Kingston, as compared with 53 births and 50 deaths in July of last year. The birth rate was 13.3 and the death rate 11.2.

### One Lock Jaw Death

The causes of death showed that two had died of fractured skulls during the past month in the city and one of lockjaw. It was stated that the lockjaw case was that of a person who had stepped on a nail on a farm in the town of Ulster and had been brought to the city six or seven hours after when tetanus serum had been injected but without success.

### Typhoid Carriers

The report also showed that there were two typhoid carriers in the city, both were said to be old men, and one had been a carrier for the past quarter of a century and the other for over five years. Both men were not considered a source of infection as they were not employed in an occupation where foodstuffs for public consumption were handled. One of the carriers it was stated had given his entire family typhoid fever in the past few years.

Reports were filed by Sanitary Inspector John McVillie, Dr. Harold Clarke, milk inspector; Plumbing Inspector Charles H. Gregory, showing the work they had done during July in making inspections.

### Stockholders of Fair Grounds to Meet on Thursday

A meeting of stockholders of the Kingston Fair Grounds Association was called for the court house Tuesday night to consider the proposal to sell the Fair Grounds property at the head of North Front street to the Kingston Board of Education as the site for a proposed stadium.

No action was taken, however, considerably less than a majority of the stock being represented at the meeting either by the owners or by proxy. The meeting was accordingly adjourned to Thursday night at 8 o'clock, at which time it is hoped that a majority of the stock held by the some 80 stockholders will be represented. The adjourned meeting will be held at the office of Attorney Joseph Forman, 65 John street.

Meanwhile the officers urge all stockholders who will not be able to attend the meeting to send in their proxies to Matthew H. Herzog at 332 Wall street, so that they may be in his hands on or before Thursday night.

In their comprehensive school system improvement plan, recently submitted by the Kingston Board of Education, one of the proposals approved by the Board was the purchase of the Fair Grounds at a price not to exceed \$10,000, the land to be used for stadium purposes. When the matter was under discussion by the Board one of the members stated that directors of the Fair Grounds Association had been seen and that as individuals they had agreed that \$10,000 would be a satisfactory price for the property.

Western New York Drenched  
Buffalo, N. Y., Aug. 11 (AP)—Rainstorms that at times reached cloudburst proportions today drenched Western New York. At Silver Creek, 25 miles south of here on Lake Erie, the stream after which the village was named over-ran its banks, briefly marooned 42 families and washed out the municipal water chlorinating plant.

### Union Prayer Service

A union prayer service will be held by the congregations of the Roundout Presbyterian Church and Trinity M. E. Church in the chapel of Trinity Church on Thursday evening. The services will be conducted by the Rev. Fred Deming, pastor of Trinity M. E. Church.

## May Expel Unwanted Nazis

### Actions Against German Refugees, Termed Espionage, May Be Britain's Motive

London, Aug. 11 (AP)—Great Britain was reported today by the Daily Herald to be considering expulsion of more Nazis in addition to three German correspondents already ordered to leave the country.

The three newspapermen were expelled, the Herald said, because they headed a Nazi organization that worked under control of the German foreign office. Daily information was sent to Berlin, the paper asserted, of social and political activities of friends of Germans living in England.

Two of the German correspondents, Franz Otto Wrede and Wolf Dietrich Lenz, were employees of a German news agency specializing in news of Germany abroad. They have already left London. The third, Werner von Crome, correspondent of the Berlin Lokalanzeiger, planned to leave by this week-end. "It is understood," the Herald said, "that the principal complaint against Lenz was that he in-

## Three Highland Residents Injured At Wells, Maine

Three Highland residents were badly injured in a motor car crash at Wells, Maine, while a fourth escaped with minor injuries. The injured are Mr. and Mrs. Charles C. Whitaker and Mr. and Mrs. Harry W. Maynard. According to word sent Mr. Maynard's son, the four, who had left for a vacation trip through Maine, were injured in a head-on collision at Wells, Maine, and were in the York Hospital. Mrs. Whitaker was slightly injured but the condition of the other three was considered more severe and William H. Maynard, son of the Maynards, drove to the hospital Tuesday on learning of the accident.

From the report received it appears the car in which the four were touring was involved in a head-on collision with another machine at Wells and that their car overturned. It was necessary to cut a hole in the top of the overturned machine in order to get the injured people out. Mrs. Whitaker was reported as being slightly injured and today it was learned that she had been able to leave the hospital. Mr. Maynard operates the meat market in Highland and Mr. Whitaker operates a grocery store in the village. Relatives were awaiting word from young Mr. Maynard as to the extent of the injuries to the three.

### To Plead for Murderers.

Albany, N. Y., Aug. 11 (AP)—Attorneys for Mayor Green, New York city negro scheduled to die in Sing Sing electric chair August 19, came here today to plead with Governor Lehman for his life. Green was convicted of the "barbaric murder" of Mrs. Mary Harper Case. The governor also was to hear an appeal in behalf of Louis Apple, awaiting execution August 16, for fatally shooting Albert Haglund during a Brooklyn street argument last December. The court of appeals recently upheld the murder convictions of both men.

### Cholera Epidemic.

Hongkong, August 11 (AP)—A cholera epidemic raging in Canton and on Hainan Island, southwest of Canton, spread to Hongkong resulting today in 59 deaths within the past 24 hours. Thousands of fearful residents fled to isolation centers for free treatment against the dread plague. The entire British army and navy forces based here received inoculations.

### Soviet Conscription Call.

Moscow, August 11 (AP)—Soviet Russian men born in 1916 were ordered today to report in September for the "sacred duty of military service in defense of the fatherland." It was the regular annual conscription call. Although the age for military service was reduced to 19 years in 1936, calling of younger conscripts does not become effective fully until 1940.

### Increase in Milk Price.

New York, August 11 (AP)—An increase of 21 cents in July milk above that purchased by the Dairyman's League Cooperative in June was announced today by league officials. The league said its members will receive an average basic net pool return of \$1.61 per hundredweight for 3.5 July milk at the 200 mile zone. This figure includes an average plus differential of 15 cents.

### SINGER'S SALE WILL START ON THURSDAY.

Henry Singer, dry goods merchant at 60 Broadway, has purchased the remaining stock of the David Weil store, 16 Broadway, and will offer it on sale, with regular merchandise, at bargain prices starting Thursday. Mr. Singer, who says that he has slashed prices to the lowest, offers a list of the bargains in an advertisement appearing in The Freeman tonight.

## 1 Dies, 2 Hurt Tuesday After Crash Caused by Bee Stinging Driver

Herbert Bookman, 56, of Jersey City, Victim of Accident  
on Saugerties Road Near the  
Rose Marie Cabins.

### TWO ESCAPE

Mother and Son in Hospital in  
Serious Condition; Daughter,  
Other Son Unhurt.

With an angry bee as the harbinger of death, the projected vacation trip of a New Jersey family of five came to a sad ending shortly before 3 o'clock Tuesday afternoon near the Rose Marie cabins on the Saugerties road when the Dodge sedan in which they were riding sideswiped a telephone pole and then crashed head-on into a tree.

The father died within a few minutes after being admitted to the Kingston Hospital and the mother is in the same institution, suffering from serious injuries. The party, composed of Herbert Bookman, Sr., 56, of 90 Clendenny avenue, Jersey City, his wife, Anna Bookman, 55, and their three children, Herbert, Jr., 22, Florence, 21, and Lenore, 13, left their home in Jersey City less than three hours before the fatal crash.

Herbert Bookman, Jr., was driving the car, his mother occupying the front seat with him. Mr. Bookman, with his daughter and younger son were riding in the rear seat.

### Bee Enters Car

They had left the Kingston city limits and were approaching the Rose Marie cabins when, according to the story told to Trooper Reilly, a bee entered the car. Young Bookman said that he had tried to drive the bee away and in doing so lost control of the car, which ran along the shoulder of the highway for perhaps 50 feet sideswiping a telephone pole, then went about 60 feet further and crashed into a tree.

Passing autoists took the injured people to the Kingston Hospital where the older Bookman died within a few minutes of being admitted, the entire side of his face having been crushed and his skull fractured. Mrs. Bookman was found to be suffering from a compound fracture of the right arm, deep lacerations about the face and forehead. She was treated by Dr. C. B. Van Gassbeck, Herbert, Jr., and his sister and brother were reported to have suffered no serious injuries.

Coroner Lester D. DuBois was notified of the death of Mr. Bookman and certified the death as a result of a fractured skull. He did not order an autopsy and the body was later turned over to a Jersey City undertaker. Troopers Reilly, Sweney and McGranaghan made an investigation of the accident.

### JAILED FOR THROWING AN EMPTY BOTTLE

Los Angeles, Aug. 11 (AP)—Police jailed Theodore Watts, 26, early today on suspicion of throwing an empty liquor bottle that endangered Al Johnson and Ruby Kewler and slightly cut Chicago Marx when it splintered against the Olympic Auditorium boxing ring.

The bottle crashed over the heads of ringsters in the seventh round of the main event, between George Godfrey, negro heavyweight, of Leipserville, Pa., and Hank Hankinson, Akron, O. Referee Max Baer stopped the fight while officers searched the balcony.

Visibly shaken, Johnson clapped on his straw hat while Miss Kewler, his wife, brushed glass off her dress. They left immediately, but the piano-playing Marx brother and Mrs. Marx stayed for the fight. Marx suffered a slight scratch on his arm.

### Treasury Receipts.

Washington, August 11 (AP)—The position of the treasury on August 9: Receipts, \$39,231,678.63; expenditures, \$22,531,331.75; balance, \$2,524,477,204.86; customs receipts for the month, \$12,657,827.99. Receipts for the fiscal year (since July 1), \$621,428,401.95; expenditures, \$878,605,656.15, including \$253,456,999.29 of emergency expenditures; excess of expenditures, \$257,177,254.20; gross debt, \$1,965,355.91 under the previous day; gold assets, \$12,144,471,493.57, including \$1,252,992,529.32 of inactive gold.

### Serfs Get Ducking

Venice, Aug. 11 (AP)—The famed Spanish painter, Jose Sert, and his wife, the former Princess Mdivani, continued their gay round of social activities today undisturbed by a sudden ducking in a Venice canal last night. Associates of the Serts said neither suffered any ill effects from their wetting when their boat capsized off the Piazza di San Marco. "Traffic Center" of this city of canals. They were said to be treating the incident as a good joke on themselves and their friends.

# Fruit Section of County Escapes Damage Tuesday In Sharp Series of Storms

## Socialists Endorse Three Republican Candidates

Tuesday was the last day to file designations petitions for candidates for the various city and county offices and under the election law all petitions were required to be on file by midnight. Designation petitions were filed by the Republican, Democratic and Socialist parties, but the Republican party was the only one to file a complete slate.

The Socialists designated candidates only for Mayor of Kingston, alderman-at-large and judge of the city court. Their petition designated the Republican candidates, Conrad J. Heiselman for mayor; John J. Schwenk for alderman-at-large and Matthew V. Cahill for judge of the city court. The petition names Joseph J. Tubby, Thomas Carpio and Harvey C. Simmons as a committee to fill vacancies.

### Republican Petitions.

Republican petitions filed from each district named a complete set of candidates as well as designating two committeemen. Republican county and city officers designated are:

Member of Assembly, J. Edward Conway of Kingston.

County treasurer, Vanderlyn T. Pins of New Paltz.

Coroner, Norwin R. Lasher of Saugerties.

Mayor of Kingston, Conrad J. Heiselman.

Alderman-at-large, John J. Schwenk.

Judge of the city court, Matthew V. Cahill.

In the various wards of the city and towns of the county a complete set of ward and town officers were designated.

The Democratic party petition failed to designate a candidate for supervisor in the First, Second and Ninth wards of the city and in twenty-two election districts outside the city of Kingston, out of 71 districts, the Democratic party has failed to designate any county committeemen and in four districts of the city of Kingston but one committeeman is designated.

### No 9th Ward Petition

There was no petition filed for any office from the Ninth Ward of the city and consequently the Democratic party has made no designation for any candidate in that ward.

There is but one contest revealed by the petition filed and that is for the office of alderman of the Second Ward where two Republicans have been designated. Jacob H. Tremper, who is at present alderman from the Second Ward, is designated as one candidate for alderman and by a separate petition Frank J. Ebel-henzer of 29 Roosevelt avenue, is also designated for the office. Both names will go before the voters on primary day and under the election law the two candidates will draw for position on the ticket to determine which name shall be first on the primary ballot.

### Democratic Candidates

The Democratic candidates designated for county and city offices are:

Member of Assembly, John J. Miller of Lomontville.

County Treasurer, Raymond W. Garrahan of Kingston.

Coroner, James M. Murphy of Kingston.

Mayor of Kingston, Bernard A. Culliton.

Alderman-at-large, Joseph Epstein.

Judge of the City Court, William A. Kaercher.

Frederick Strauss Dead

New York, Aug. 11 (AP)—Frederick Strauss, 72, for many years a partner in the banking firm of J. & W. Seligman & Co., died at his home here today of a heart attack. He was a director of Electric Bond & Share Co., Radio Corp. of America, Tri-Continental Corp. and National Broadcasting Co.

## 12 Contests for Delegates

### Primary Struggles Will Decide Those to Go to 1938 State Constitutional Convention

Albany, N. Y., August 11 (AP)—At least twelve contests for nominations as delegates to New York's 1938 constitutional convention will mark the September 16 primary balloting.

Six of the contests are upstate, designating petitions on file with the secretary of state showed today, and the remaining six in New York city and Brooklyn. Eight involve Democrats and four Republicans.

Rival Democratic slates have been entered in each of the Second and Third Senatorial districts, Queens county; 19th, Manhattan; 11th, Brooklyn; and 24th, Richmond-Rockland, while four Republicans seek the three seats in each of the 14th and 15th districts of Manhattan.

In the 48th, 49th and 50th districts, two complete slates of candidates were filed for the Democratic party nominations. One was backed by the county State Assembly.

## City Gets Brunt of Dramatic Electric Storms Last Night and Early This Morning— Utility Crews Kept Busy.

### MEASURE OF RELIEF

### Thunder Showers Bring Some Change in Nation's High Tem- peratures.

Ulster county was visited by a series of showers Tuesday afternoon and again early this morning but outside of slight interruption in electric service and flooding out of scattered telephones the damage was reported slight. Inquiry at the office of the Ulster County Farm Bureau this morning disclosed that the fruit belt of the county had apparently escaped damage and thus far no damage from hail had been reported.

The first severe storm struck the vicinity early in the afternoon and again later in the evening a second storm blew up. There was a heavy downpour of rain in the lower portion of the city early in the afternoon and gutters were flooded for a time. Accompanied by sharp flashes of lightning and heavy rumbling of thunder the storm swept many sections of the county as well as the city.

### Tree Blocks Road

On the South Roadout road a large pine tree fell across the wires bringing them down and blocking the highway for a time. In the vicinity of Rosendale there was a slight interruption at LaFayette Park, a tree was blown down and damaged the transmission line causing a short time-out. All of the difficulty along the electric service was of minor nature caused by tree and branches damaging lines.

Telephone service was affected in scattered sections and about 70 lines were reported out. This put about 125 phones out of order temporarily until repairs were completed.

A second heavy shower passed over the county about 3 o'clock and a heavy downpour of rain again flooded streets and clogged gutters.

People traveling through the mountain sections of the county during the early evening reported a series of heavy showers which apparently followed along the various valleys and flooded small streams for a time.

### Damage in City

A miniature cloudburst that broke over Kingston about 7 o'clock Tuesday evening flooded streets and sidewalks and left in its wake damage to telephone and electric house and street lighting circuits.

The telephone and electric light companies reported that the most damage occurred outside of Kingston, but there were scattered cases in Kingston where telephones were placed temporarily out of commission by falling limbs taking down the wires as they were torn from trees.

The records at the city engineer's office in the city hall show that the cloudburst deposited a rainfall of .36 inches during the brief period it lasted. The entire rainfall in the afternoon and early this morning amounted to 1.25 inches.

The Central Hudson Gas & Electric Corporation reported that fallen trees and limbs had caused the most damage in Rosendale where both the house and street lights were out until repairs had been made. It was said that also there were isolated cases within the city limits.

The New York Telephone Co. reported that the most damage was sustained in Port Ewen and Connelly with a few scattered cases in the city. About 40 telephone wires were torn down and 150 telephones placed out of commission until repairs had been made to the lines.

A falling limb took down the electric power line on Gage street which supplied the power to the Hostler ice cream plant, and the fire department was called out at 3:30 o'clock when an alarm was turned in from Box 64. The firemen promptly notified the Central Hudson of the trouble and a repair crew was sent to the scene.

Precipitation began Tuesday afternoon for brief intervals. About 7 o'clock that evening the sky became overcast and there was a vivid display of lightning and a high wind followed by a deluge. The rain fell heavily and vision was almost impossible.

So heavy was the fall of rain that streets became miniature rivers of rain as the catch basins were unable to carry off the water as fast as it fell. In some streets the water rose as high as the hub caps on parked automobiles.

Residents of West Chestnut street reported that sewers which

## State Legionnaires Gather at Troy

Troy, N. Y., Aug. 11 (AP).—More than 20,000 Legionnaires marched into Troy today for the annual four-day convention of the New York State Department of the American Legion.

Featured by an address by Governor Herbert H. Lehman Friday, the convention will close Saturday with the election of departmental officers.

Six candidates were in the field for commander and their "campaign headquarters" were set up in a downtown hotel as James M. Golding of Brooklyn, who pointed to his slogan: "Up Fifth Avenue with Jim Golding as State Commander".

Two former commanders of New York county, Charles Hann, Jr., and Abraham J. Rosenblum, also are in the race. Hann is supported by the New York county unit and Rosenblum is running independently.

Others seeking the post to be relinquished by George M. Clancy of Rochester are Jeremiah P. Cross, Bronx county; William H. Rogers, Jr., Dutchess county; and Harry B. Williams, Yonkers.

With Niagara Falls, Endicott and Johnson City seeking designation as the 1938 convention city, a keen fight is also anticipated in this selection.

Also meeting in conjunction with the sessions are the State Department of American Legion Auxiliary and the Forty and Eight Society. Edward A. Raynes, of Decatur, Ill., past national commander, is expected to attend.

**Scully Beat His Wife**

John Scully of 108 North Front street was arrested Tuesday evening by his wife, who charged that he beat her, by striking her in the face. When she appeared in police headquarters she was bleeding from the effect of the blows struck. This morning in police court Scully pleaded guilty to assault on the third degree. After Judge Culliton had talked the matter over with husband and wife he imposed a sentence of 30 days in jail, but suspended the serving of the sentence provided Scully refrained from hitting his wife.

**Bitten by Dog**

Ray Doolley, 4, of 328 South Wall street, was bitten in the leg by a dog on Tuesday. The incident was reported to the health board, and Dr. Harold Clarke later notified the police department that the dog had been placed under quarantine.

# Japanese Warships at Shanghai With Marines

(By The Associated Press)

Tokyo answered today with a warlike display of naval power what Japanese considered the assassinations of a Japanese naval officer and seaman at Shanghai Monday.

The advance of the Japanese first fleet—12 destroyers and three light cruisers—anchored at Shanghai and landed a detachment of 500 marines to reinforce the Japanese garrison.

The resulting increased tension in Central China was matched by a reported major battle between Chinese and Japanese troops at Nankow Pass, 30 miles northwest of Peiping.

Unconfirmed Chinese reports were that the Japanese army was being defeated. Japanese said the Chinese city of Nankow, core of the area where forces of the two nations have been massing for two weeks, was in flames.

Arrival of the Japanese warships at Shanghai, coupled with evacuation of Japanese civilians along the Yangtze river, indicated Japan was preparing for a large-scale undeclared war in the rich Central China commercial area.

Tokyo considered the slaying of the two Japanese as having gravely endangered the slender chances for peace between the two oriental nations. Chinese contended the Japanese were at fault in the clash.

Japan also cited as an indication that the Chinese government intended to wage war two disquieting reports from China—that Chinese would attempt to recapture Tientsin and Peiping, and that the Central Chinese government was ready to move its capital from Nanking to Hankow for greater safety.

In Russia, the Irkutsk newspaper "East Siberia Pravda" reported the execution of 72 alleged Siberian railroad wreckers accused of conspiring with the Japanese secret service to weaken Soviet transportation in case the Soviet, vitally concerned in the Far East, goes to war.

## Peace Hopes Slim

Tokyo, Aug. 11 (AP)—The slaying of the Japanese naval officer and seaman at Shanghai was considered today as having gravely compromised whatever slender chance of peace remained between Japan and China.

Japanese officials were avowedly anxious to settle the Shanghai clash through diplomatic channels, lest it be the last step leading to a formally declared war and jeopardize their conquest of North China. The slayings—Japanese charge Chinese guards fired on the two without provocation—were taken, however, as still another indication of the fundamental seriousness of the breach between the two powers.

That, added to two disquieting reports from China, was believed to indicate the intention of the Chinese government to wage war. The reports were:

1. Generalissimo Chiang Kai-shek, the Chinese premier and army commander, has completed his preparations for hostilities and is ready to attack Peiping and Tientsin in an effort to recapture them from the Japanese army.

2. The central government of China is prepared to move its capital from Nanking to Hankow for greater safety and has already made final arrangements for the transfer.

Gen. Chiang was said here to be completing the movement of Chinese troops to the north along the Hankow to Peiping and Pukow to Tientsin railroads. This movement has been going on since the first clash over the rich North China region occurred on July 7 and was considered as evidence of his intention to recapture Peiping and Tientsin. The two North China cities were lost to the Japanese army in the first rush of its attack.

Simultaneously, the generalissimo, described by foreign military experts as one of the greatest strategists in the Orient, is moving a large force from the north along the Peiping-Suiyuan railroad to strike the now extended Japanese army in the rear and envelop them in the vicinity of Peiping.

With these armies now ready to strike, the newspaper Nichi Nichi reported from Nanking that the Chinese navy had concentrated ten large vessels to carry out the evacuation of the government.

One of these was said to be the luxurious yacht of the generalissimo's brother-in-law, T. V. Soong, which will provide accommodations for Chiang and other high government officials. The other nine ships were said to be for removal of the government's archives.

Japanese authorities were afraid that China would strike without warning against Tokyo with the powerful Chinese fleet of American-made tri-motored bombing planes. These ships are said to have an effective bombing radius of 1,500 miles.

To offset this threat, construction of five new airbases was ordered on the outskirts of Tokyo. They are to be equipped with fast pursuit ships of the latest design, powerful anti-aircraft batteries and bombproof dugouts.

## Japanese Defeat Reported

Peiping, Aug. 11 (AP)—Unconfirmed Chinese reports persisted here today that the Japanese Army was being defeated in a major engagement near Nankow Pass, 30 miles northwest of here on the Hopen-Chanah provincial border.

It was just west of Nankow that Chinese reported yesterday a detachment of Japanese, seeking to force their way into Chanah Province, had been annihilated. Shortly afterwards columns of Japanese troops began moving to the northwest in the direction of the pass.

The units were completely mechanized and included companies of tanks.

Japanese declared that there was fighting near the Great Wall Pass at Nankow but insisted it was merely light skirmishing and that no major operations could be expected for at least two weeks.

A complete recasting of the political and intellectual life of this former capital of China's emperors and still the capital of her culture is going on under the direction of Peiping's new Japanese masters.

Her military conquest of North China virtually complete, Japan has turned her attention to recasting books and other publications, destroying thousands of them that are allegedly anti-Japanese.

All publications except those admitted down today with the suppression of Peiping's two largest newspapers printed in Chinese. A strongly pro-Japanese English language daily is expected to appear soon.

Japanese cars sped through the city this morning distributing leaflets urging a fundamental reorganization of the North China educational system. The leaflets advocated that Japanese-educated students should take over cultural affairs in Peiping.

American educators and missionaries have expressed the fear their work was doomed and the Chinese would be driven out of the great universities they have built up with millions of dollars raised in the United States.

Helen Welhouse (above), 15, of Appleton, Wis., was stabbed fatally by Glen Barker, 24, of Shiocton, as she came off the floor of a ball room. The youth said he yielded to "an impulse of the moment."

## Diving Lassies At Williams Lake

What was called the best diving exhibition ever seen at Williams Lake was given yesterday by Madeline "Buddy" Karson of Manhattan Beach, New York.

Karson came to Rosendale along with Cornelia "Corky" Gillissen, 1936 Olympic Tower Diver, and nine-year-old Norma Dean, new Metropolitan diving sensation, to perform for Pathe News photographers.

Miss Karson went through a series of difficult dives that made the crowd applaud the daring of the girl. As soon as she bounced the 10-foot springboard in a preliminary warm-up, everyone knew that she was capable of putting on a good show.

In her warm-up dives, which included the swan, jack-knife, back jack and back dive, Miss Karson attained tremendous height from the spring of the board, executed her dive with perfect ease and grace, came out of her dive with definite precision, and made her entry into the water as straight as an arrow and with hardly a ripple.

Some of her more difficult dives included a back one and one-half layout, a full twist, a two and one-half somersault, and a cut-away one and one-half somersault.

Pep Meetings at Two Playgrounds  
Two of the city's playgrounds will hold their regular community night tonight and will also have pep meetings in preparation for the City Olympics which will be held tomorrow at Hasbrouck Park.

Activities at Loughran Park are headed by a softball game on bicycles, open to all who care to participate. The only equipment necessary for playing is some sort of a bicycle and a sense of humor. Community singing will follow this softball game and then a pep meeting will be held around a campfire—the purpose of this meeting being to inject a spirit of winning ways into the representatives of the playground who will endeavor to uphold the spirit of Loughran Park in the Thursday games.

The evening's festivities at the High School playground are much the same as those scheduled for Loughran Park. However the correspondent for this playground points out that this group is without the benefits accorded other playgrounds in the city in that it has no equipment with which to work. He further states that with their enrollment of 100 boys and girls and the enthusiasm displayed by this group, they have attained third place in the interpark competition for the park cup and fully expect to advance a notch or more following the results of the Olympics at Hasbrouck Park tomorrow.

## Roosevelt May Call Special Session of Congress in Fall

Washington, August 11 (AP)—Congressmen interpreted today White House comment on farm loans as meaning President Roosevelt will call them back in session this fall.

Mr. Roosevelt reiterated at a press conference yesterday that he had not yet received sufficient guarantee of adequate crop control legislation to warrant authorization of federal loans on cotton or other crops selling too low.

He indicated there will be no loan program unless such legislation is passed by January, when the next regular session of Congress begins.

Because both House and Senate agriculture committees have postponed action on crop control legislation until next year, some members called the President's statement a hint of a special session.

Demands for loans arose among cotton-state Congressmen after the agriculture committees laid aside the legislation.

Rep. Cannon (D-Mo) expressed the belief that if Congress would adopt a resolution assuring action on a farm bill next January, the President would authorize loans from funds now available.

Such a resolution was approved by House Democratic steering committee yesterday. A similar one is pending in the Senate.

Meanwhile, the Senate authorized its agriculture committee to hold hearings during the coming recess and report a farm bill within one week after reconvening, whether in special or regular session.

"It is assumed," said Majority Leader Barkley, "that the chief executive will be in touch with the committee and its progress. If the committee has legislation ready earlier than next January, then in his judgment he could decide whether it was advisable to call a special session."

## 72 Executed in Far East by Russians

Moscow, Aug. 11 (AP)—The execution of 72 alleged far eastern railroad wreckers accused of conspiring with the Japanese secret service was reported today by the Irkutsk newspaper "East Siberia Pravda".

The executions followed others in series, but the group was one of the largest to be executed in Soviet Russia's farflung Siberian province.

Now the total of known executions in this far eastern campaign to root out spies and wreckers is 320.

The Irkutsk band was described as made up of Trotskyist, Rightist terrorists who wrecked trains along the Siberian railway at the behest of the Japanese intelligence service, thus weakening Soviet transportation in the case of war with Japan.

They were charged with causing one wreck in which fourteen persons were killed and many injured. The victims were workers and their families, on route to settle the new town of Komsomol.

Many cases of scintilla marked by pains in the lower back are caused by forgotten accidents, which have caused cartilage to intrude into the spinal canal, University of California scientists have found.

## Power Pole Cause Of Plane Crash Causing 4 Deaths

Daytona Beach, Fla., August 11 (AP)—A power pole was the center of an investigation today into the crash of an Eastern Airlines plane that killed four persons and injured five.

The plane, a Chicago-Miami passenger ship, smashed into the pole just before dawn yesterday and dived into a Palmetto Hammock. It was the first major accident in Eastern Airlines history.

First to claim investigators' attention was the story of Peter Dygert, airport manager, that the pole was erected near the end of the runway during the night without notice to airport officials. He said neither he nor Stuart G. Dietz, pilot of the plane, who died in the wreck, knew of the power line's existence.

Officials of the Florida Power and Light Company, whose employees erected the pole, hurried here yesterday but none of them was available for comment.

In addition to Dietz, the dead were Robert R. Reed, co-pilot, and two passengers, J. Triana, Mexico City, and J. H. Philpotts, Kingston, Jamaica.

Of the four injured, only Fred M. Thompson, Greenville, S. C., remained in critical condition. He still was unconscious early today.

Of the others, Steward Brian Merrill, was "only fair" with internal injuries and broken ribs, and C. W. Dunlap, a passenger, whose hip was fractured, was paralyzed by a spinal cord injury. A board of inquiry, made up of four federal department of commerce inspectors and a representative of the state of Florida, examined the wreckage and made plans for a public hearing.

## Boy Returns Home

There was some activity Tuesday when State Troopers were notified that Marile Auchmoody, Jr., 12 years old, had been missing from home at Kyserville since Monday night. Troopers and county officials were asked to search for the lad who it was reported had been missing from his home where he lived with his father and grandparents. Later the sheriff's office was notified the lad had returned home and the search was called off.

## Some Relief Felt

(By The Associated Press)

Thunder showers in some states, driving rains in others brought a measure of relief from the enervating heat, but the country generally still fretted in discomfort.

Italy cooled parts of Indiana, New York state and, in the south, Georgia and Florida.

The middle west generally was fair with a prediction of thunder showers and cooler weather for the Chicago area and continuing high temperatures and clear skies in states farther south.

A maximum temperature of about 85 with high humidity in New York city was expected to be broken by local thunderstorms. The humidity in the forenoon was in the nineties.

Upper New York state got relief this morning.

Rain fell during the night on Pennsylvania and the weather turned cool in parts of the state, although Philadelphia reported rising temperatures and sticky atmosphere.

The rain storm that hit northern Pennsylvania reached over into New York state, drenching Rochester and bringing confusion and distress to the extreme western part of the state.

Forty-two families were marooned at Silver Creek, 25 miles south of Buffalo on Lake Erie, and the Silver Creek stream, running over its banks, washed out the municipal water chlorinating plant.

Weather Bureau officials in Buffalo said 1.19 inches of rain fell.

## Cheques Forged With Girl's Name

Paris, Aug. 11 (AP)—Police investigating the strange disappearance of 22-year-old Jean De Koven disclosed today that some of the Brooklyn, N. Y., dancer's travelers' cheques had turned up bearing her forged signature.

Police said that four of the travelers' cheques had been traced to the ticket windows of the Paris exposition and two to a bank where they had been changed into francs. Detectives showed the cheques to the dancer's aunt, Miss Ida Sackheim, who declared the signatures were not those of her niece.

On Miss Sackheim's plea, a majority of the investigators assigned to trace the girl's movements since she landed in France in July were withdrawn so the aunt could make contact with the "abductor."

Miss Sackheim, who has reported receiving ransom notes demanding \$500 for the release of her niece, published a new advertisement today.

"Worried but willing to do everything, please name intermediaries. Notify us how resume negotiations."

## Wage-Hour Bill Blocked In House Rules Committee

Washington, August 11 (AP)—Stubborn opposition to least temporarily blocked the administration's wage-hour bill today in the House rules committee.

Plans to clear the way for debating the measure tomorrow were sidetracked unexpectedly when Chairman O'Connor (D-NY) announced without explanation that a meeting of the committee had been called off.

There were strong indications the decision was intertwined with attempts to work out some sort of settlement of the crop loan-farm legislation situation.

Some rules committeemen have announced they would try to keep a wage and hour bill from the House floor until they had assurances a farm bill would be enacted.

Following announcement of the postponement one administration leader told reporters that proponents of the bill simply did not have at the time enough committee votes to get the wage hour measure to the floor.

President Roosevelt has made authorization of crop loans dependent on enactment of a crop control law. One group in Congress wants to delay action on such a law until next session. Another, of farm state members, has threatened to fight for delay in the wage hour bill unless farm legislation goes through this session.

One leader indicated a compromise was in the wind. Lending strength to that idea was the fact that Charles West, liaison man between the White House and Capitol Hill, called on House leaders early this morning.

Afterward, Speaker Bankhead and Majority Leader Rayburn talked with O'Connor. The announcement of cancellation of the rules committee meeting followed.

Some Congressmen said if the wage and hour legislation was held a while in the rules committee, there would be opportunity for evolving some farm plan as well as for attempts to swing more committee votes into line behind the labor standards bill.

## HOUSING GAIN HERE

That Kingston is progressive in the matter of building construction is clearly shown by a report of C. J. Ryan, vice-president of the Investors Syndicate of Minneapolis, who listed the Colonial City among 22 other cities in New York state wherein housing increased four times more than did the population during the year of 1936.

In comparing the rate of population with the rate of housing, the report states that "Colonial City put up in these 22 New York cities provided shelter for 145,840 people while the estimated population in these cities increased only 32,512."

An interesting feature of this housing survey was the relation of the cost of new housing per person—an average per capita cost of \$945.88 for the year of 1936.

To further show the construction which is being carried on locally, Fire Chief Joseph L. Murphy stated that during the month of July 1937, over \$109,015 was spent in construction and repairs. Included in this amount are four new residences at an estimated cost of \$30,000, two new garages costing \$500, a shed for \$200, and seven non-residential buildings at \$2,310. Alterations to residential properties cost another \$7,035, and to non-residential buildings, \$68,150.

Following up this report of the Investors Syndicate for the year 1936, comes another local report which puts the number of new homes constructed in Kingston since the first of 1937 around 35, a number of which are still in the process of building. This amount of work is swelled by approximately 50 new garages and 15 additions to old buildings.

This housing program has afforded a great deal of work for local contractors such as carpenters, bricklayers, masons, plumbers, electricians, roofers, etc., and this volume of business, most of which has been placed locally, has helped to boost pay rolls here.

Responsible local concerns offer the same quality materials and workmanship for less money than many out of town and out of state organizations, and there should be no necessity for urging the spirit of community cooperation through the letting of work to local contractors.

## PLATINUM.

With a large part of the world's gold buried at Fort Knox, Kentucky, all ready to provide excitement for the archeologists of the future who happen upon it in a wilderness, the world now turns its attention to platinum. Italy, it seems, is going right after platinum in Ethiopia. The deposits at Judha have been worked by primitive processes, producing a maximum of 772 pounds a year. A new company has been formed, which is installing modern machinery and building a village for workers. It hopes to supply the needs of Italy and have a balance for export.

On the heels of this news comes word from Alaska that the mounting production of platinum from an Alaskan village named for the metal may upset the world's market next year. About four times as much of the precious metal is being mined in the vicinity of Platinum in 1937 as was brought out in 1934. Wedding rings ought to be cheaper pretty soon. And dentures. And many other things.

## MIDDLE CLASS AMERICA.

"In every American family," says William Allen White, "between the grandchild and the grandparent there is much real

contact with men and women going up or down the scale.

"Father or mother or one of the four grandparents of every child is on the way from one class to another. The middle class, therefore, knows practically what it is to be rich and what it is to be poor. This ability to see another's viewpoint has been the spiritual heaven in our democracy. It has kept us quick and alive. This heaven has been the basic principle of our ceaseless quest for justice. We have developed an understanding heart."

This is true everywhere in America save on the poorest farms and in the largest cities. At the two ends we seem to be starting classes which have not moved from shirt-sleeves to white-sleeves in the traditional three generations. The fear of developing classes which stay put on lower levels in what causes America's understanding heart to skip a beat now and then. America is determined not to develop a proletariat and the hooms and busts of modern industrial methods seem in a fair way to develop one. Many modern thinkers see the danger. But on the whole, it seems safe to keep betting on America.

## KETOGENIC DIET

Anyone who has seen a patient in an epileptic seizure or fit, must be impressed with the great comfort to patient and family if any method can be used to prevent these distressing attacks.

Notwithstanding all that has been written by health writers there seems to be a woeful lack of knowledge of the latest methods now in use to combat epilepsy.

As far back as 1921 epilepsy was first treated by what is known as the ketogenic—low starch and high fat—diet. This diet causes an acidosis and in epilepsy and in migraine—one sided headache—is a precursor of the blood and tissues is present. In their book Dietetics Simplified, Dr. Jean Bogert and Maine T. Porter state: "Probably the best treatment of epilepsy today should combine the giving of the drug luminal (or phenobarbital) with a diet which produces some degree of acidosis and a restriction or lessening of the intake of fluids."

"If such a diet is followed carefully for six months, symptoms are controlled in about one-third of the cases, the condition of another third is definitely improved, and the remainder of the patients seem to derive no benefit."

"In planning the ketogenic diet, the main specifications are (a) large amount of fat—cream, butter, egg yolk, (b) very small amount of carbohydrate or starch—bread, potatoes, sugar and (c) plenty of protein (meat, eggs, fish)."

A sample diet given by Drs. Clap and Kocher in Dietary Treatment of Epilepsy, Journal of American Dietetics Association is as follows: Breakfast: One-quarter medium sized orange; 4 1/2 squares of butter; 2 eggs; 2 squares of brown bread; 4 tablespoons 40 percent cream; bran waters. Lunch: Chop; 3/4 small head cauliflower; butter; 3 squares; bran waters; pineapple mousse; cream (40 percent) 5 table spoons; pineapple 1/2 in pieces, about 1-5 cup. Dinner: Egg 1; cheese (American or Canadian) 1/2 in cubes; salad; lettuce 2 large leaves, tomato 4 medium sized, mayonnaise 1-3 spoonfuls; bran waters; butter 1 square; cream 40 percent whipped 5-8 table spoons; agar jelly.

Only vegetables and fruits that are low in starch must be used such as green vegetables and strawberries.

## FLAME TRAIL

BY MARIO DE SERVAUD

SYNOPSIS: Key Crandon impulsively hires Ted Gaynor, a job-hunter. He helps her fight Josh Hastings, a "friendly" neighbor who wants to negotiate the return trip with the double handicap of his unconscious burden and the darkness, with no stars to guide him.

It had been hard enough going before. Now, as he left the illumination of the conflagration behind, Ted found it almost impossible to negotiate the return trip with the double handicap of his unconscious burden and the darkness, with no stars to guide him.

After pushing on blindly for what seemed an eternity, he decided finally that he would save himself in the long run by waiting for the dawn. He called a halt and lifted off the bulky form of Josh Hastings. Laying him on the ground, he bent close to feel his prisoner's pulse and listen to his heart.

Reassured as to his condition, in spite of the coma into which he had sunk, Ted threw himself down beside him, and was soon lost in a sleep of utter exhaustion.

When he woke, he uttered an exclamation of amazement and dismay to find the sun so high. His exhausted frame, worn out by the strain of the last few nights, had lulled him into a false, and instead of the short nap he had expected to take, he must have been asleep for hours.

He glanced over at Josh Hastings and breathed a sigh of relief to find him as he had been before, so breathing heavily, in the stupor of his unconscious. The blow on the head had left him.

Ted rose to his feet, and went a short distance to a rocky projection to get his bearings. A long low whistling escaped him, as he gazed incredulously at the panorama stretched out before him.

Hastings Tries A Dicker HE GLANCED up at the sun, as though challenging its right to be where it was, then looked once more at the cloud of smoke that hung heavy over the ridges. But instead of being behind him, it was to the north and east, and the mountains Ted had expected to get his bearings by, had shifted to unfamiliar outlines.

Admitting finally the evidence of his own senses, Ted was forced to the conclusion that he had completely lost his way in the darkness the night before, and had gone off at a tangent to the southwest, instead of retracing his steps to the north, as he thought he had been doing.

Ted cursed his impetuous haste that had led him astray, as he hurried back to Josh Hastings. Before preparing for the long ride, he ate a bite of the lunch that Marion had insisted on tying to the crutch of his saddle.

Refreshed by the food and his long sleep, he hoisted Josh Hastings' unconscious body across his horse, and started back.

A fresh breeze had sprung up, and Ted glanced uneasily at the top of the ridge above him to gauge its velocity. It was characteristic of the mountains to have a wind start up around noon, but this one seemed to be gathering alarming force. Once get a strong wind behind the fire, and there was destruction that would most certainly ensue.

Ted resolutely pushed on, following the same method he had the night before, of sometimes riding, but more often walking. Only this time he was traveling in the right direction.

He hated to think of the added anxiety Marion would have over his delay, but there was no help for it. There was one good point, anyway. He was well out of the probable range of the fire fighters, and therefore stood a better chance to escape premature delivery into their hands.

Suddenly, as he walked up a steep incline beside his mount, Ted became aware of a groan and eyes staring at him. Glancing down, he saw that Josh Hastings had regained consciousness.

He made a tentative struggle to free himself, but Ted called a peremptory halt.

"The tables are turned, now," he explained curtly. "If you know what's good for you, you'll keep still!"

A look of hatred flashed in Josh Hastings' eyes before he closed them, and let his head flop back wearily.

"My head!" he groaned. "Without a word, Ted took his canteen and put it to Josh Hastings' lips. He took greedy sips of the warm liquid, then opened his eyes again.

"What are you taking?" he demanded, glancing at his hand and wrists.

"Where are you taking me?" he asked, looking up at Ted.

"Where you can repeat what you told me back there, before a witness," Ted answered grimly. "It would be a hell of a lot easier to have left you to be cremated, as you planned to leave me. But you have some information that happens to be useful to me."

A shrewd look narrowed Josh Hastings' eyes.

"Suppose I give you a signed statement, will you let me go?" "And have you deny it later?" "Not on your life," Ted gave a short laugh. "You've framed me once too often. I prefer a witness."

## Man About Manhattan

By GEORGE TUCKER

NEW YORK—George Ross, on a late prow, happened by Lindy's the other night and fell in with a gang of

insoinnics. As usual the talk centered around the show shops what new plays were coming up, producers, Broadway characters in general.

Then someone mentioned how tall Robert S. Erwood is. He's the tallest playwright on earth, standing something over six, six. Somebody else said A. C. Blumenthal was Broadway's shortest character, and from there they went on to identify Broadway, thusly:

Alexander Woolcott, heaviest; Irving Berlin, leanest; Fannie Hurst, quietest; Vincent Hart, quietest; Robert Sherwood, tallest; A. C. Blumenthal, shortest; Hope Hampton, most glamorous; Anna May Wong

## A Children's Garden Party

A pretty little garden party was given Tuesday afternoon by Mrs. Roscoe V. Elsworth at her home on South Broadway, Port Ewen, in honor of the birthday of her daughter, Eileen. The garden was decorated with pink streamers, and the table daintily set for Eileen's little friends. A large birthday cake bearing four lighted candles adorned the center. The little hostess received many gifts. The afternoon was spent in playing games, and enjoying dances given by some of the guests. Although the shower caused the party to seek shelter in the house, the prevailing "birthday spirit" was in no way dampened.

## HOME INSTITUTE HOME PRACTICE MAKES YOU A GRACEFUL, POPULAR DANCER

Isn't it romantic—dancing in the moonlight? Yes, for Paul and Diane it is.

For no stumbling mars their smooth Westchester. They've learned this fascinating slow foxtrot by practicing at home with instructions and diagrams from a famous teacher.

Home practice accounts also for their grace, the slick way Paul leads, the smooth way Diane follows.

See how easily they glide into the Change Step, the clever variation we've diagrammed. So they'll begin without fumbling. Paul pulls Diane toward him with a lifting pressure of his arm. As he steps forward on Count 1 he relaxes his arm.

Diane follows him lightly as he continues with right foot on Count 2, transfers weight to left foot on Count 3, brings back right foot to left foot on AND, and steps forward with left on Count 4. Easy for her to avoid stepping on toes, for she's learned the trick of long backward steps.

Other dances—waltz, fox-trot, tango, rumba—they learn the same way. Diagrams show how. You also can be admired for your dancing—know the fun of having swarms of partners. Our 40-page booklet, SOCIAL DANCING SELF-TAUGHT, is a complete home course. Makes you an accomplished, graceful dancer.

Send 15c for our booklet. SOCIAL DANCING SELF-TAUGHT, to Kingston Daily Freeman, Home Institute, 109 West 19th street, New York, N. Y. Write plainly your NAME, ADDRESS, and the NAME of booklet.

## Zionist Negotiations.

Zurich, Switzerland, August 11 (AP)—The world Zionist congress voted today to negotiate with Great Britain on a royal commission's recommendations for the partition of Palestine, despite impassioned opposition by Rabbi Stephen Wise of New York. The vote was 304 to 155. The vote climaxed Rabbi Wise's plea for flat rejection of the royal report, which envisages the splitting of the Holy Land into Jewish, Arab and British mandated sectors. "No! No!" the American rabbi cried out. He and his associates were opposed irrevocably to any division of Palestine which would lessen the scope of the Jewish national home.

## ARE YOU ONLY A THREE-QUARTER WIFE?

THERE are certain things a woman has to put up with and be a good sport.

Men, because they are men, can never understand a three-quarter wife—a wife who is all love and kindness three weeks in a month and a hell cat the rest of the time.

No matter how loudly your nerves scream—don't take it out on your husband.

For three generations one woman has told another how to go "smiling through" with Lydia E. Pinkham's Vegetable Compound. To help Nature come up the system, thus lessening the discomforts from the functional disorders which women must endure in the three weeks of life 1. Turning from girlhood to womanhood. 2. Preparing for motherhood. 3. Approaching "middle age."

Don't be a three-quarter wife. Take LYDIA E. PINKHAM'S VEGETABLE COMPOUND and Go "Smiling Through."

## Two Convictions For Disorderly Conduct Found

In Justice Theodore Townsend's court at Pine Hill three actions were tried Tuesday evening and two convictions for disorderly conduct were found, the third case was dismissed when the complainant testified that the defendant had taken no part in the fracas which resulted in the triple arrest.

Hyman and Lena Chodur, who with Samuel Powers operate the Cleveland Hotel at Pine Hill, were the two convicted while Powers was discharged by the court after testimony had been taken in the case.

During the trial it developed that Hyman and Lena Chodur and Mr. Powers in addition to running the hotel also sell groceries to people who rent cottages. Mrs. Della Weinacht testified this month complained to Sheriff Abram Molyneux that when she purchased groceries at a store in Pine Hill and brought them home to her cottage she had apparently aroused the anger of the hotel keepers and she charged that they entered her cottage and threw her food out on the lawn.

On the advice of the sheriff she swore out a warrant for the arrest of the three and State Trooper Ray Dunn served the warrant charged disorderly conduct. Tuesday evening the matter came to trial. Lillian S. Kramer appeared for the district attorney's office and George A. Spensburgh of Poughkeepsie represented the three defendants. Mr. Kramer was ready to combine the three cases and dispose of them at one trial but Spensburgh asked for separate trials. His request was granted and the three defendants were tried separately.

After the trials the Chodurs were found guilty and fined \$10 each but Mr. Powers was discharged when the complainant testified that all she saw him do was stand and watch the Chodurs throw the articles out of the window.

## Boy Killed By Lightning

New York, Aug. 11 (AP)—A thunderbolt which started people throughout Manhattan killed a 10-year-old boy about to dive off a dock for a swim in the East river at noon today. He was not immediately identified. Death by lightning in Manhattan is unusual, police said, owing to the fact that the high buildings attract and render harmless most of the bolts. The bolt was immediately followed by a driving shower and sidewalks in the midtown area were nearly deserted for a quarter of an hour.

## Not Much Change In Stocks Tuesday

There was not much change in stocks yesterday in a 690,000 share market. Industrials and utilities showed a slight rise on the Dow-Jones average, while rails lost 0.2 point. Bonds were inactive.

Government grain reports yesterday indicated still further prospective increases in production. The Department of Agriculture estimates all wheat production at 890,413,000 bushels as of August 1. This is an increase over the July 1 estimate, which was 882,000,000 bushels. Compared with production of 826,000,000 bushels in 1936, before the estimate was announced, wheat closed strong on lower crop estimates for Canada, unfavorable crop news in the Southern Hemisphere and renewed North American exports.

U. S. Steel July shipments showed a drop of 81,798 tons from the month before.

Nine railroad equipment makers, reporting for the first half of 1937, show aggregate net income of \$29,435,149, about 31% percent larger than for the same period in 1936.

American Tobacco is expected to earn at least \$5 on common this year, compared with \$3.70 earned on common in 1936.

Radio receiving set manufacturers, with unit production at record levels, are reported to be advancing prices from ten to 15 percent. Increased production costs are given as the reason for the raise.

Board of Governors of the Federal Reserve System estimate that less than \$500,000,000 in gold remains in hoarding in London and that the private gold holdings in the entire world total about \$1,000,000,000.

Some earnings reports for the second quarter of 1937 include: Briggs Manufacturing \$1.75 a common share, compared with \$2.21 common share in 1936 second quarter. Western Union 66 cents compared with \$2 year ago. Best & Co. \$1.86 compared with \$1.67.

Gasoline stocks declined 1,556,000 barrels in week ended August 7.

National Supply and Spang Chaffin directors have approved a plan for consolidation of the two companies.

Robert L. Young, chairman of Allegheny and Chesapeake Corps, estimated combined share earnings of C. & O. in 1937 at between \$4.50 and \$4.75 a share.

Wesson Oil and Snowdrift lived amount of extra dividend previously declared on common shares at 87 1/2 cents.

Wage increases of from 5 to 15 percent for 6,000 Brockton, Mass., shoe operatives were provided in union yesterday.

Competitive situation in the retail tire market is seen to be improved somewhat by action of Sears, Roebuck and Montgomery Ward in removing from their fall catalogues any reference to "road hazards" in their tire guarantees. These guarantees were dropped by the major rubber companies last February after losses through such broad guarantee had reached an estimated \$10,000,000 a year.

## U. S. Composers Act Against Iturbi For His Remarks on Rosendale Road

New York, Aug. 11 (AP)—American composers today considered banning outspoken Jose Iturbi, Spanish-born conductor, from further use of their compositions.

Iturbi stopped a national radio broadcast by the Philadelphia Orchestra Monday night because he objected to some American popular songs on the program as "cheap, rotten music."

E. C. Mills, chairman of the administrative committee of the American Society of Composers, Authors and Publishers, said it was regrettable that "such a distinguished artist should have so narrow a mind and so intemperate a tongue."

"American composers would be well within their reasonable rights in henceforth forbidding him under any circumstances or at any time to render any of their copyrighted compositions," Mills added, "and it may be that they will do this unless he retracts his remarks and apologizes for them."

"His thoughts as to the worthiness of music seem to be somewhat controlled by the financial atmosphere surrounding his programs," Mills continued, "inasmuch as he was recently an enthusiastic participant in a commercial radio program broadcast under the sponsorship of the admiralty during the war, in which Iturbi did not hesitate to play swing music and otherwise indicate his complete endorsement of popular works of American origin."

Some of the songs to which Iturbi objected were composed by Victor Herbert, George Gershwin, Olly Speaks and Jerome Kern.

## Madrid Reports Rebel Outbreak

Madrid, Aug. 11 (AP)—Spanish government sources reported today Generalissimo Francisco Franco's artillery had shelled his own city of Segovia to put down a revolt in the insurgent ranks. The rebellion was said to be spreading through the province after province.

Government observation posts reported a brisk conflict was going on in the city 43 miles northwest of Madrid. The crackle of machine gun and rifle fire within Segovia, the observers reported, could be heard plainly from the nearby government lines.

Insurgent artillery batteries were said to have opened fire on their own stronghold from Quita Pasaes.

Reports from far to the south said that revolt was widespread in the neighborhood of the city of Granada and that Franco's troops, rebelling against his regime, had used rifles and machine guns in an attack on the city.

Then, these reports said, the revolting insurgents attacked the positions held by their former comrades in the vicinity. The fighting was said to have reached its height about noon yesterday. Observers declared that a squadron of insurgent warplanes had hovered low over Granada but had not bombed the city.

The Valencia defense ministry said three Italian officers had been slain in street fighting between Spanish insurgents and their foreign allies at Malaga on the southern coast.

## About The Folks

Howard Smith, local musician, in spite of its name, the English horn, well-known orchestra instrument, is not a horn at all. It is a "wood-wind" instrument, observes a writer in Pearson's London Weekly. Other wood-winds are the clarinet, oboe and bassoon. The true horns of the orchestra are the "brasses," such as the cornet, trumpet, trombone, tuba and others. One instrument in this section is the French horn. This is called briefly, "the horn," and this expression usually refers to the French horn rather than any of the other brasses.

Gibbon Ape Nearest Human  
Smallest of the apes, and supposedly the least developed, the gibbon is, nevertheless, one of the most human. It walks erect, with its long arms almost dragging the ground. That isn't its only manlike action. Like a human gymnast, it swings from branch to branch, using only its arms. Other monkeys generally push off with their feet.

Snakes and Indians  
The Hopi snake dance draws thousands to the fantastic cliff villages in northwestern Arizona. The time of the snake dance is never announced by the Indians until ten days before the actual date, but it is held almost invariably in mid-summer. This ancient ceremonial is one of the most interesting of all Indian survivals.

### AND TALKS ON MATTERS MASCULINE

We don't know whether Stanley was wearing a bush shirt when he pulled his famous "Dr. Livingston, I presume?" line, but they have been the favorites of explorers in the warmer climates for years. Recently, the explorers took them home and started wearing them around the country club and at the beach. Originally, they were made in lightweight tropical cottons, but now they may be had in linen, gabardine and lightweight corduroy. For golf or almost any sort of casual country wear, they are very fine indeed, and the capacious pockets carry anything from a pack of cigarettes to a seven-course dinner.

The planter's hat is a sort of extension model panama with a creased crown and a wider brim. The West Indian planters like them and so do a lot of us Northern folks. All of which reminds us of the New Orleans undertaker who used to refer to himself as a "Southern planter" on his visits North.

The belt shown here is made of fine metal coils and stretches like crazy. A fine leather belt adds to its appearance. It is cool and comfortable for summer wear. With it is shown a pair of horizontally striped ankle socks. They go well with the pirate shirt shown elsewhere.

We got so interested in the bush shirt at the top of the column that we forgot to tell you about the fine blue linen slacks this man is wearing. They are cut on generous proportions and are cool and comfortable for beach and resort wear. Available in a variety of brilliant—and subdued—colors. They go well with beach kit or for general country lounging. This ensemble is completed by a pair of leather Norwegian peasant slippers. These are very similar in design to Indian moccasins, which may prove some affinity between the Vikings and the Indians. The slippers have a hard leather sole, however, and are more practical than moccasins. They are suitable for all types of country lounge wear.

The bold blue blazer is as essentially a part of the English country gentleman's kit during the summer months as his moustache. It's having a "succession" as the French put it, in this country, and no wonder, either. It is a fine practical number for country wear, especially for after tennis, and is a nice change from the odd jacket. With it is worn a throw-over scarf and a pair of peasant linen shorts. These are good for tennis and golf, too.

## Esquire's eti-query

We've culled from our daily mail bag the following queries on dress and etiquette.

A man from Texas wants to know what kind of stationery a man should have for business, and for social use.

Single sheet of plain white paper with your name, address

and phone number engraved or embossed at the top is the generally accepted thing for business stationery.

Social stationery could be a single or double sheet of paper, fairly large, with your full name and address in simple block letters (large letters are in vogue at present); or large initials in lower case letters at the top center or in the upper left hand corner.

A gentleman from Charleston asks: "I am 5'5" tall. What length jacket should I wear?"

Suit coats should be just long enough to cover the round of the seat.

A Philadelphia man wants to know what color accessories to wear with solid blue, grey or brown suits, and with black plaid suits.

WITH BLUE SUITS, a blue or grey shirt is smart when combined with a blue, grey or maroon tie.

WITH STRIPED GREY SUITS, a grey or tan shirt worn with a bottle green tie would look very well.

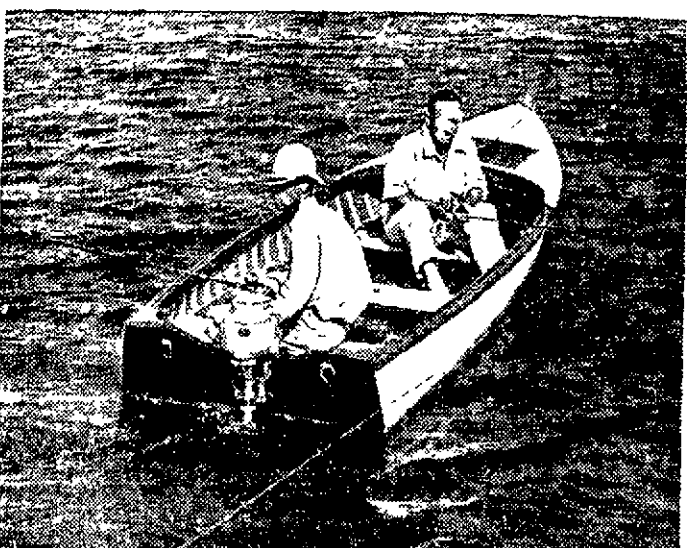

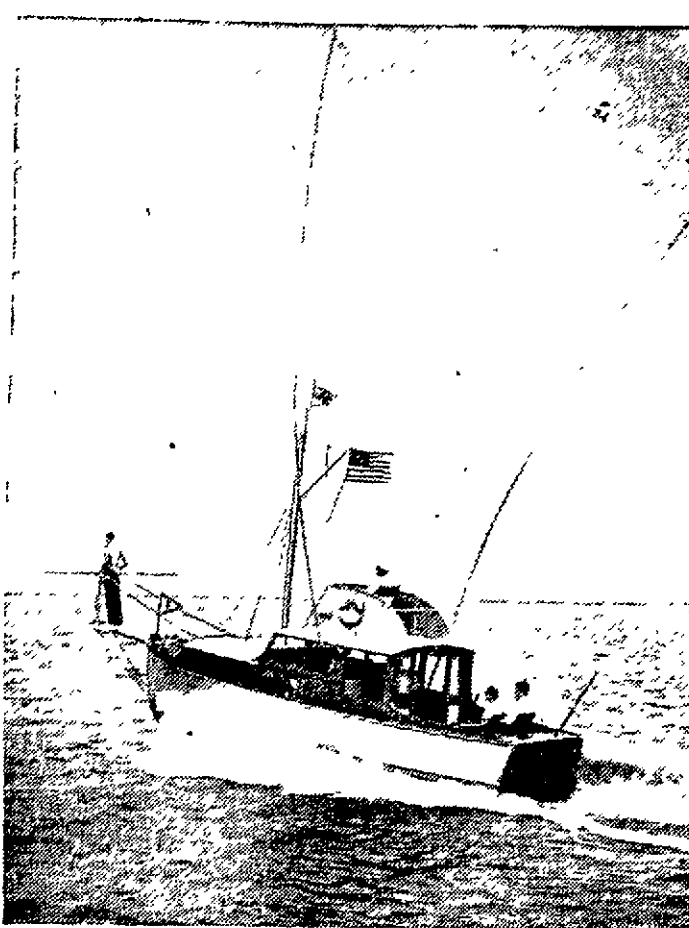

A blue or grey shirt with a maroon tie, or a tan shirt with a blue tie are other possibilities.

WITH BROWN OR TAN SUITS, a tan shirt with a bottle green or brown tie, or a blue shirt with brown tie.

WITH BLACK PLAID SUITS, he might wear a grey or blue shirt with white starched collar and wine or grey Spitalfield tie.

## 1937 Fishers Popular

**Tides Meet in Hudson**  
The tide flows both ways in the Hudson River, an unusual characteristic due to the stream's length. By the time the tide is ebbing out of the upper channel the flood tide already is surging into the lower river and one passes over the other at some point which engineers have been unable to determine, perhaps in the narrows at West Point.

1—Lie on the board like this, hands on either side holding the rope short. Then signal the boat to start.

2—When speed brings aquaplane and yourself to the surface, pull slowly up on your knees on the rear of the board.

3—Still holding onto the board, raise up like this. A ducking is the penalty for error at this ticklish stage.

4—Let go of the board and gradually raise the rope through hands until they are 14 inches ahead of feet.

5—When you want to turn, just push one foot down and pull up on the rope directly opposite. Pushing the left or the right foot down will steer you accordingly. Instructor Welsh says aquaplaning is a great physical developer—and so safe that your grandmother can do it.

**Employment Losses Usual**  
Albany, Aug. 11.—Employment in New York state factories in July was down about 1 per cent from June. Payrolls were approximately one and one-half per cent lower, according to a statement issued today by Industrial Commissioner Elmer F. Andrews. These changes are in line with the usual seasonal declines from June to July as shown by reports covering the last 22 years. Seasonal expansion took place among several food products industries. Seasonal reductions continued in the women's clothing and millinery concerns.

## FISHES OF LIFE SKETCHED IN BRIEF

BY ASSOCIATED PRESS

## THIS FISHERMAN TOSSES BACK HIS "AGED" CATCHES

Glennau: UP—To Charles F. Williams there are fish and other fish.

So when he goes fishing in Florida, he surprises his friends by carefully examining his catch and throwing back a large percentage of those he catches.

It seems that Williams, president of the Western and Southern Life Insurance Co., has a theory about fish.

Most folks just insist that a fish be fresh, he explains, but a fresh fish may not necessarily be tender. That all depends on its age, just as a young chicken is far more tender than an old hen.

An old fish, says Williams, is not palatable even though it has just been caught any more than an old chicken is tender just because it has just been killed.

So when William catches a mess of fish, he selects the young and the ones and throws the others.

How he selects them his friends don't know, and he won't tell, but they insist that there must be a secret. Williams' fish dinners are epicurean ecstasies.

## WAKE UP YOUR LIVER BILE—

Without Colman—And You'll Jump Out of Bed in the Morning Raring to Go

The liver should pour out two pounds of bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, sick and the world looks pink. Laxatives are only makeshifts. A more powerful movement doesn't get at the cause. It takes these good, old Carter's Little Liver Pills to get these two pounds of bile flowing freely and make you feel "up and up." Hazy, hazy, gentle, yet amazing in making bile flow freely. Ask for Carter's Little Liver Pills by name. Stubbornly refuse anything else. 25c.

## IT'S ODD But It's Science

By HOWARD W. BLAKESLEE (AP Science Editor)

New York—It takes more dynamite, or even pure nitroglycerine, to blow out an oil well fire at high altitude than low.

When battles of the future are fought in the stratosphere this fact may be important to fighters. It's proof was in an oil well fire, at 3,800 feet, in Lee county, New Mexico, at a Continental oil company shaft.

When very bad, these fires are extinguished by a charge of nitroglycerine, exploded close to the blaze. It is like blowing out a candle. In Lee county a blast of 30 quarts of nitroglycerine, the amount ordinarily needed to blow a fire such as was burning there, had no effect. Eighty-five quarts also failed. The fire was then snuffed out with a 155 quart explosion, the largest ever used for this purpose.

The explanation is the rarefied atmosphere. There's not so much air to blow.

## The World Of Stamps

—By James B. Hatcher—

The design for the Virginia Dare stamp—suggested by President Roosevelt—shows the long lost infant in the arms of her mother (Ellenor White Dare), who is seated before their log cabin, partly visible in the background. Ananias Dare, the little girl's father, stands just behind his wife, holding a musket. A spinning wheel, plow and bowl of vegetables are details of the scene.

At the left of the central oval, "US Postage" will be arranged vertically in white Gothic, the first two letters forming a monogram. At the right, similarly arranged, will be "5 Cents." Across the bottom of the stamp in two lines will run the inscription: "In

Memory of Virginia Dare. Born Roanoke 1587" in dark lettering. This 5-cent stamp, which will be light blue and one inch square, will first go on sale August 18 at Manito, Roanoke Island, N. C.

Stearns' Painting All 39 signers of the Constitution will be portrayed on the stamp which will commemorate the 150th anniversary of the adoption of the Constitution. It will be a 3-cent purple of the same size as the Northwest Territory stamp, and will be issued September 17, the date of the adoption, probably at Philadelphia.

## Work Started on Mushroom Plant

The Knaust Brothers of West Camp, who operate a small mushroom plant in the Ponckhockie section of this city in the old cement quarries, broke ground Monday for a new \$250,000 mushroom plant at Coxsack.

The new project will be located on an 18-acre tract near the West Shore Railroad on land originally owned by the American Valve Company.

The main building, according to present plans, will be 350 feet long, 275 feet wide, and 50 feet high, with an interior designed for efficiency in production with the latest type of equipment.

A new method of culture patented by the Knausts, will be conducted on a huge scale, marking a new step in the increased and rapid production of mushrooms. Trays of carefully prepared material will be inoculated with mushroom spawn and put in the new plant where they remain two weeks, after which the young growth is distributed to growing houses along the river where the plants gain maturity and are harvested.

When the new plant is ready for operation, the Knausts will have increased their production to about 1,500 complete trays per day—each tray being equivalent to six three-pound baskets of mushrooms.

A cooper shop and a sawmill will be included in the building program, the foundation of which is being excavated by 25 workmen to a depth of four feet in hard clay. The concern hopes to complete the new plant by the first of next year.

**Miley and Berg Battle for Prize**  
 Chicago, August 11 (AP).—The women's western 72-hole medal play golf derby picture looked familiar again today, with Marion Miley of Cincinnati, and Patty Berg of Minneapolis, battling for the prize.

Miss Miley, winner of the 1935 and 1936 tournaments, was in front with a 36-hole score of 154, but red-haired Patty, runner-up to the former Lexington, Ky., star the past two years, was hot on her trail after an indifferent start.

Miss Miley added a 78, two under par, to a 76 yesterday. Miss Berg, who took 83 strokes on her opening round, came back yesterday with a spectacular 36-33-74 for a new Openwitsa Club competitive course record, and second place at 157. Her 74 displaced Miss Miley's opening 76 as the course mark.

As the classy field went into the semifinal, the list of champion possibilities was pretty well boiled down. In third place, with 80-79-159, was Mrs. Dan Chandler of Dallas, Tex. Edith Esterbrook of Duquesne, who started with a fine 77, but slipped to 158, was fourth with 160.

**3 Year Olds Race For \$40,000 Today**  
 Goshen, N. Y., August 11 (AP).—Park avenue, Broadway and just plain folks, some 40,000 strong, moved in on this little horse-loving community today with the twelfth Hambletonian as the magnet.

Twelve of the finest three-year-old trotters the sport could assemble have been named for the race, richest of light-harness horse stakes with a value close to \$40,000.

The field was to parade to the post at 2 p. m. (E. S. T.) for the first of the two best in three heats. Two hours or more later, depending on the number of heats, the owner of the winner will pocket approximately \$20,000, with the remainder divided among the next five horses.

As for the race itself, it figured to be a three-horse affair, involving DeSota, owned by Paul Bowser, Boston wrestling impresario; Schnapps, seeking a second Hambletonian victory for the Winston-Salem, N. C., tobacco magnate, W. N. Reynolds; and Twilight Song, pride of Bill Strang's New York owned stables.

**Match Play Today In Public Links Tourney.**

### 7-Year-Record Set New Stock Firms

Albany, Aug. 11 (Special).—With a capitalization totalling \$46,736,600 for stock companies incorporated in the state during July, all records over a period of seven years were surpassed, according to figures released today by the Division of Corporations, in the Department of State.

New stock concerns for the month numbered 1,313, bringing the total for the first seven months of the year up to 11,240 as compared with 11,379 for the same period in 1936. Of the 1,313 new enterprises, 663 elected to issue no par value stock.

In Ulster county, one new concern was chartered during July, with a capital of \$10,000. Upstate counties accounted for 161 of the month's record, as against 1,152 for the five counties of Greater New York. In the matter of capitalization, however, the outside counties showed an aggregate of \$31,989,800 as against \$14,746,811 for the metropolitan county group.

### THESE TWO PITCHERS HAD A BUSY DAY

Topeka, Kas. (AP).—It was a big day for pitchers in the Ban Johnson league.

George Holmes, Chanute tosser, struck out 20 men while pitching 20 innings of baseball. He blanked the Eureka club, 13-0, in the first half of a twin bill but dropped the night-cap, 6-4, after 11 innings. Holmes was the first pitcher in the history of the league to work more than 18 innings in one day.

Minnie Horn, Topeka hurler, stole the show when he shut out Kansas City, 8-0. During the course of the afternoon he fanned 12, issued no passes and hit a home run with all bases occupied.

**Another Shortstop May Pace A. L. Batters**  
 By DILLON GRAHAM  
 Washington (AP).—It's possible that a shortstop again may lead the American league at bat this season.

A year ago Luke Appling of the Chicago White Sox breezed in ahead to become the first shortstop in the league's history to win the hitting crown.

Appling is finding his scarier these days but another shortstop, gangling Cecil Travis of Washington's Senators, may beat out the Yankees' Lou Gehrig and Joe DiMaggio for slugging honors.

Travis' average has been in the .380's—just a few percentage points above the bludgeoning Gehrig.

Travis has been a problem child to Owner Clark Griffith ever since he came up from Chattanooga of the Southern association in 1934.

"If He Could Field"  
 "If," Griffith often sighs as he talks of Cecil, "if he could only field!"

Travis ranks among the poorest short fielders defensively, but tops them all at bat.

He came up as a third baseman. But he didn't seem to fit in there, and was tried at short. It was no go. Then he took a whirl at the outfield, but, as the baseball boys say, he played it something like a plumber.

Finally, in dire need of a shortstop, Griffith and Manager Buckey Harris elected to put Travis into to slot and let him muddle around, in hopes he might finally acclimate himself to the position.

**There He Stayed**  
 He's been there all season and, although he makes some fine plays that a fielding master would be

One of the largest turnouts of softball fans ever assembled here is expected at the Athletic Field, this evening to see the first in the playoff series between the Old Catskill Appleknockers and the Coolerators.

Starting time of the game is 6:45. Mayor Conrad J. Heiseleman will throw out the first ball, and from then on the fans may expect action galore, according to the rival managers.

Artie "Burlough" Kaplan, boss of the Appleknockers, says his boys will take the thing in a walk. "We'll freeze out these Coolerators like nobody's business. I pick my team to top this series three in a row."

The route is scheduled for five contests, the team winning three getting the pennant.

Ed Shullis, Blinewater Lake Ice Co. head, sponsor of the Coolerators, has predicted three straight wins for his team. "We're going to take three in a row, and be on the top of the heap at the end of this series," said he.

Regardless of Manager Kaplan's boast about three straight victories, there's one indication that he is not too sure about tonight's game.

"I'm going to smoke a 12-inch cigar," said "Burlough." This according to the Coolerators boss indicates a nervous feeling on the part of Manager Kaplan, who is reported to have swallowed a cigar when the Board of Public Works trimmed his club during the league schedule.

"Kaplan will have a 12-inch cigar so he won't swallow it," said Director Shullis. "He knows how surprises affect him, and wants to be sure."

Ben Toffel will pitch for the Kaplan and Plough will be behind the plate.

Ferris Williams is slated to toss for the Coolerators with Johnny Houghaling as his battery mate. The rest of the lineup will be Stover, 1b.; Wheeler, 2b.; Winne, short; Johnson, 3b. In the outfield will be a crew chosen from Rhymel, Schline, Rory, Baltz, Haines, Pine, and Laubach.

## Birdseye View Of Sports Events

By EDDIE BRIETZ

New York, Aug. 11 (AP).—Mike Beloise, the featherweight (he's champ in New York state) has whipped pneumonia and leaves the hospital today.

"Nice going, Mike!," Tops in compliments was served up by Joe Louis.

When Jimmy Braddock visited Joe's camp the other day, Louis greeted him: "Hello, Champ!"

"Pretty neat, eh?" If the Jints buy Buckey Walters from the Phils this winter, don't forget you read it here in August.

Billy Scanlon, just 18, may become the country's youngest sports editor when he takes over on a Lacrosse, Wis., paper soon. . . . Boy, is it warm in this man's town!

Old Babe Ruth still is hollering his head off about his putting. . . . Wonder if Coach Jack Sutherland still is enjoying all that hefty scenery down in the Ohio Valley?

Note to Mickey Cochrane: Smiler Sogness, the six foot, one inch Indian pitcher from Wallace, Ont., you are going to try out next spring, has a reach six inches longer than his height (according to reports).

What great long arms you have, Grandpa! . . . Dumb Dan Morgan, one of the slickest fight managers in his day, now wears a stiff white collar and turned up hat and looks like a Sunday school teacher.

Mike Jacobs arises at 6 a. m., rain or shine, and often has his attorney, Sol Strauss, meet him at the Alhambra by 7. . . . Which simply slays Mr. Strauss, who likes to have his coffee in bed two hours later. . . . The boy the New York flight managers are squabbling over is Ray Matulewicz, twelve intercollegiate light-heavyweight champion at Duke. . . . He won his first two pro fights in ten-round decisions; since then has put six straight opponents to sleep.

Norman Ross, former world's swimming champion, who had a lot to do with the development of the Johnny Weissmuller, now is the crack racing announcer for a big Chicago broadcasting chain.

Pedro Montanez tunes up for his September 23 title tilt with Lou Ambers by taking on Red Cochrane in Braddock Bowl, Jersey City, next Monday night.

Acc Parker, former Duke star now with the Athletics, definitely has decided not to play pro football. . . . Don't be surprised if one of these days Maj. Bob Neyland of Tennessee sends for his former star quarterback, Gene McEver, now head coach at Davidson. . . . Mickey Owen of the Cardinals is beginning to make good on some of the nice things they said about him last spring. . . . Extra! Here's a guy who can stop Joe Medwick. . . . Orville Joransen of the Phils gives Joe a base on balls, then generally catches him napping off the bag.

**Practice Shoot Thursday, 4 p. m.**  
 The Ulster County Gun Club skeet range will be open for practice shooting Thursday afternoon at 4 o'clock.

Various summer activities have cut down the attendance at the regular weekly shoots but it is expected that members will turn out during the next several weeks to prepare for the club championship shoot to be held Sunday, August 23.

The public is invited to participate in the shooting.

## Feather Title Match Approved

A featherweight championship match was assured for Madison Square Garden at the meeting of the boxing commission Tuesday afternoon, when the solons of statuficus put their approval on Mike Jacobs' proposal to pair Henry Armstrong and Pete Sarron for the undisputed crown.

Sarron is recognized as the champ by the N. B. A. and European bodies, because of his win over Freddie Miller. Armstrong recently knocked out Mike Beloise, New York's champion.

CECIL TRAVIS

proud of it's always a gamble when a ball goes his way. He hit just around .319 both of his previous full years in the big show. Travis never was a long-bitter but is of the sharp hitting variety.

Buddy Myer, Washington's second sacker who won the 1935 batting championship, predicted a year ago that Travis would soon strike his top stride and lead the hit parade. The Georgian may beat out Myer's forecast.

## Kingston Tennis Players Lead in Catskill Tourney

Seven of Kingston's better-known tennis players are entered in the Greene County Open Tournament at Catskill, and in the matches played to date, the locals have given a good account of themselves, vanquishing their first round opponents.

Randall Rose, No. 1 man of the Kingston Tennis Club who spends much of the winter months competing in tournaments in Florida and the southern states and who last year won the Greene County title, raced through to the semifinal rounds by defeating Albany's No. 2 ace, J. Cohen, 6-2, 6-4.

Rose's superior steadiness and nearly unbeatable placements angled from all corners of the court to beat an opponent whose style was practically lawless.

Don Turner, another local player, won his opening match and then succumbed to Randall Whitebeck, 6-0, 4-6, 6-3. Whitebeck, another Capital district star, was forced to put on the pressure to overcome Turner's dogged determination to win against any odds, but the upstate player's superior knowledge saved his game for him.

Two other Kingston men advanced in competition as Douglas Kennedy and Chet Fox defeated their opponents in straight sets.

Three local girls make up the balance of this city's presentation. Marge Clubb, No. 1 girl player, advanced through default, while Edith Kennedy and Jean Kennedy disposed of their opponents in straight sets.

Edith Kennedy defeated Winnie Knoll, 6-2, 6-0, while Jean Kennedy pounded through to a 6-0, 6-0 victory over a lassie named Sommerville.

In the women's doubles, the Kennedy sisters teamed up to defeat Knoll and Van Loan, 6-1, 6-1.

Douglas Kennedy and Edith Kennedy are scheduled to uphold Kingston's honor in mixed doubles competition, but have not yet played. Matches are scheduled to be played this week, with defending champion Randall Rose picked to retain his title.

## Home Leaders Give Closio Their Chance on Thursday

### Playoff Game Friday Night

The play-off game for the second half of the City League was washed out by the cloudburst Tuesday evening. A large assemblage of fans had gathered at the Athletic Field to witness the contest and one inning was played when the rain arrived.

It was decided by the managers to hold the game Friday evening at the Athletic Field. It was previously announced that the game would be played tonight in case of a postponement, but inability of the managers to get their teams together altered the plans.

Justus Chick was on the mound for Berardis and Schoolboy Dush was tolling for the Brewers when the game was interrupted yesterday.

Closi concluded with "We'll take over the Bakers first then go right along the line and hand 'em all a shellacking. I'll prove they didn't want us in the second half of the league because they were afraid of us."

Both clubs will use their regular lineups, according to the managers.

Starting time of the game is 6.15 o'clock. Dick Dush and Dewey Van Buren will officiate as umpires.
